Our development experience with Chrome Infosoft Solutions has been fantastic. They have adapted flexibly to our needs. When we needed to take our project into a different direction they changed gears and moved into the direction we needed to go. We have been working with Chrome Infosoft Solutions for almost one year now and our relationship with them has been great

Our first project has suffered some delays due some unavoidable circumstances, but Chrome Infosoft Solutions never compromised on the final quality of the product and our full customer satisfaction. Today, the product in service delivered by Chrome Infosoft Solutions is the foundation of our finance business, and has allowed us to reach an amazing productivity and end to end document management solution with business workflow features. We see Chrome Infosoft Solutions as a real partner for our IT projects and recommend them to anyone

We are impressed by the quality of the team working on our project. Not only is the code which many development houses can write but the team displays a real understanding of our issues and comes to the table with suggestions and ideas that are very impressive. They never "just accept" what we tell them, but they always question if what we are suggesting is the best way to approach the problem. This has led to a better overall product, and one that we are very confident in moving forward.

Chrome Infosoft Solutions is a very professional and expanding company. I wish them all the best for their future endeavors.

Best Regards,

Saubhik Mallik
