To Whomsoever it May Concern

This is to certify that Ms. Chrome Technology Solutions has implemented "Sea Scape" ,a business analytics for top management which caters realtime profitability of the organisation.

The software implemented is working successfully and is being used by us on a day to day basis. It also enables the top management to take decisions based on its "What-if" analysis feature.

We are completely satisfied with our experience with Chrome Technology Solutions and will use their services again in the future if needed. We wish them luck in all their future endeavors.

Thanks & Regards,
