

To Whom-so-ever it May Concern

Writer Safeguard Private Limited (WSG) and Chrome Technology Solutions (Chrome) are associated in a partnership model since **FY 2011 till date** to develop and implement a state of the art and first software in the CRA industry in India, **Core Business Solution (CBS)** at WSG, who is one of the leaders of **Cash Management** in Indian currency market.

The CBS Suite is built with an objective of efficient and effective management of **Operational procedures** and automating the processes for **Call Centre, Sales and Billing** functions. The modules in CBS are integrated with external Corporate Applications for real time data exchange. WSG Rolled out the software in a managed - phase wise manner and to see a final rollout in September 2013 across more than 200 pan India locations with all the modules active.

Team Chrome has being instrumental in ensuring that the development of software is as per the requirements and also always up on the heels to support with an aim towards a successful implementation. During the tenure and even to the date, techies from Team Chrome are always available for any sort of **Scalability, Performance, Security or any Technical Support** whenever required. They have always shown a **strong appreciation to technology** and worked **"out of the box"** to deliver the desired **value to the customer**.

Our experience with Team Chrome has being always exciting and we expect similar services from Team Chrome in the future too. We wish, Team Chrome succeeds in all the future endeavors.

Thanks & Regards,

Swapnil S Bagul
